CDPH Identified Vaccine Equity  
Metric Quartile 1 Zip Codes\*\*

\*\*California Department of Public Health (CDPH) developed the Vaccine Equity Metric which combines the Health Places Index (HPI) with CDPH-derived scores. Zip codes with less healthy community conditions are in Quartile 1. For more information on CDPH Vaccine Equity Metric visit <https://covid19.ca.gov/vaccination-progress-data/> Doses registered through 2/19/2023. Updated 2/22/2023. California Immunization Registry (CAIR2), SANDAG 2019 Population Estimates (Prepared June 2020). Ages 6 months and older included in vaccination. The total estimated eligible population in San Diego County is equal to the total estimated San Diego County population as estimates are calculated by years. 39 zip codes were identified as Health Equity Zip Codes for San Diego County. Zip codes with at least 25% of the area within a HPI Quartile 4 census tract or zip codes experiencing a high burden of COVID-19 were selected. These 39 zip codes include the 12 zip codes identified in the CDPH Vaccine Equity Metrics Quartile 1. For more information on San Diego County Health Equity Zip Codes refer to the document COVID-19 Health Equity Zip Codes Summary and Vaccination Report on the County of San Diego's COVID-19 website. ^Primary vaccine series completion is defined as receipt of 2 vaccine doses for persons over the age of 5 who received Pfizer-BioNTech, Moderna, NovaVax, Astrazeneca, or receipt of 2 doses for persons who received unspecified U.S.-authorized or approved COVID-19 vaccine, or receipt of 1 dose for persons who received Janssen. For those 6 months to 4 years of age, primary vaccine series completion is defined as receipt of 3 vaccine doses for persons who received Pfizer-BioNTech, or receipt of 2 doses for persons who received Moderna. Immunocompromised status cannot be determined, therefore, the recommended primary vaccine series schedule is not listed for immunocompromised individuals aged 6 months to 4 years.
